Life of Sin

Psycho Charger

Well, I'm runnin' down the road about a hundred and five
Don't care if I live, I just wanna die
Searching for a gal who wants to keep me alive
Satan's in the backseat givin' me advice again
Livin' a life of sin
Well, the highways are rocking with our hillbilly sound
Tryin' to show these people how we like to get down
Searching through the crowd for another drunken round
Satan's in the backseat givin' me advice again
Livin' a life of sin
(You're going straight to hell, motherfucker)
Well, the highways are rocking with our hillbilly sound
Tryin' to show these people how we like to get down
Searching through the crowd for another drunken round
Satan's in the backseat givin' me advice again
Livin' a life of sin
Life of sin, life of sin, life of sin, life of sin
