

Another Country

Reuben Kigame

We are part of a generation
That will probably see Jesus come again ee
Prophecy that was spoken I've tally
almost come to pass today e-eh
We know that lies don't last so long
And we know the truth can never hold in vain

So the world will pass away we
Everything last it away
So don't hold on sin but
Believe in Jesus the only way

I belong to another country
I belong to another place
When the saints shall live in glory
And shall sing what an amazing grace

I shall possess some needs that
World's can never satisfied today
And I Will speaks to it that
I belong to another better place
Hungry songs of our time as our leader
Hopes to strikes some peace for days

The originality of society the foolishness
Of its color the real knowledge of the
Scientist tell me that I belong to a better place

I belong to another country
I belong to another place
When a saints shall live in glory
And shall sing what an amazing grace
Huu huu eeh

And down on the river road lies Onyango
Cause he drank himself to death
There is some lectures rules a professors
Swear to prove that God is dead
And some country rules available to clear
Sinners away

Somewhere in the opens a Pastor preaches
Money becomes by for his power
Then I know that I belong to a better place

I belong to another country
I belong to another place
When the saints shall live in glory
And shall sing what an amazing grace X3
They shall sing what an amazing grace X2
