

Use Your Fist and Not Your Mouth

Marilyn Manson

Come on, come on, come on, come on I am overground and outselling it, since God thinks I don't exist
The beatings happen per minute
This is not blue collar white corrective politics
I'm on a hate American style kick This is the black collar song
Put it in your middle finger and sing along
Use your fist and not your mouth
(Come on, come on, come on, come on) This is the black collar song
Put it in your middle finger and sing along
Use your fist and not your mouth
(Come on, come on, come on, come on) I'm on a campaign for pain
And when I get elected
I'll wipe the white off your house
The smile off your face This is the black collar song
Put it in your middle finger and sing along
Use your fist and not your mouth
(Come on, come on, come on, come on) This is the black collar song
Put it in your middle finger and sing along
Use your fist and not your mouth
(Come on, come on, come on, come on) I woke up today and wished for tomorrow
I don't want to be like anyone else
I woke up today and wished for tomorrow
I don't want to even be myself I said "No this isn't your song, we can't all get along
It's too hard to hold hands when your hand's a fist"
My hate pop won't ever stop, I'm fucking glad we're different
This is my hate American style hit Don't bring it
Don't sing it
Use your fist and not your mouth This is the black collar song
Put it in your middle finger and sing along
Use your fist and not your mouth
(Come on, come on, come on, come on) This is the black collar song
Put it in your middle finger and sing along
Use your fist and not your mouth
(Come on, come on, come on, come on) This is the black collar song
Put it in your middle finger and sing along
Use your fist and not your mouth
(Come on, come on! come on, come on!) This is the black collar song
Put it in your middle finger and sing along
Use your fist and not your mouth
(Come on, come on, come on, come on) I woke up today and wished for tomorrow

I don't want to be like anyone else
I woke up today and wished for tomorrow
I don't want to even be myself
