# What Comes Funky

## Parliament

Doin', what comes funky
Doin', what comes funky
Doin', what comes funky
Doin', what comes funkyPeople, what ya gonna do
I can't help you run from you
Don't you know you're in this too
Oh, you do me and I'll do youThere's a brother doing the hickybear?
There's a sexy little sister doing the lump
Oh, swinging like a pendulum
Flashing, I mean flashing, like a strobeI don't need approval
Oh, to be a mover
Doin', what comes funky
Doin', what comes funky
Doin', what comes funky
Doin', what comes funkyEgo tripping can be lots of fun
Especially when you're tripping with the one
Music so good I feel outrageous
You can tell by my stroke I'm getting seriousThere's a brother doing the hickybear?
There's a sexy little sister doing the lump
Oh, swinging like a pendulum
Flashing, I mean flashing, like a strobeJoys don't need no alibi
Embarassment will never live you down
Save your foolishness for another day
But for tonight, come out and playThere's a brother doing the hickybear?
There's a sexy little sister doing the lump
Oh, swinging like a pendulum
Flashing, I mean flashing, like a strobe
Oh
