Am I Ready?

Spitalfield

Hit that clock and step out of place
It's a brand new day, you got someone to be
And that someone is you
(That someone is you)When you do something, you give it full heart
You're right through the door with a running startWhen you fall asleep tonight
And you ask the question
Am I ready? Yes, you're ready
Would you pause the world for it?
Would you drop your life now?
Am I ready? Yes, you're readyIf anyone, can I knew you could
You make the brand new shirt and tie look good
And I knew you would
(I knew you could)Don't you ever say
You'll never
Live the life you dreamt
You'd leadWhen you do something you give it full heart
You're right through the door with a running startWhen you fall asleep tonight
And you ask the question
Am I ready? Yes, you're ready
Would you pause the world for it?
Would you drop your life now?
Am I ready? Yes, you're readyLay me down, lay me down
Lay me down, lay me down
Lay me down, lay me down
Lay me downWhen you fall asleep tonight
And you ask the question
Am I ready? Yes, you're ready
Would you pause the world for it?
Would you drop your life now?
Am I ready? Yes, you're readyWhen you fall asleep tonight
And you ask the question
Am I ready? Yes, you're ready
Would you pause the world for it?
Would you drop your life now?
Am I ready? Yes, you're ready
