

# Always Running Out of Time

## Motion City Soundtrack

I won't tell you how to live your life  
So please stay far away from mine  
Always watching out for which and when  
Is always running out of time Drip drop in like skin of summer  
All once everything unwinds  
Inside out and all about my heart  
Is always running out of time  
Always running out of time I have to know  
If you flew away with me  
The faster I go  
The further away it seems we get  
And floating our way out Tick tock, try to stop the forward motion  
All heads tend to fall behind  
Wasted whether of the wish cut steeper  
Always running out of time  
Always running out of time I have to know  
If you flew away with me  
The faster I go  
The further away it seems we get We're falling behind and all of her end  
I should have stayed but I lost my head  
With all of our words devoicing themselves  
I should have stayed but I lost my head  
I should have stayed but I lost myself Always running out of time  
Always running out of time  
Always running out of time  
Always running out of time Always running out of time  
Always running out of time  
Always running out of time  
Always running out of time
