

Blind

Jars of Clay

Advisory - the following lyrics contain explicit language:

Cynical, just your way
You play the doubting Thomas
Feel the scars and wipe the stains So you fight and retreat
And talk yourself out of believing
In any peace that you can't see Blind words you call
Blind words will fall You're logical, you can't find
Any reason to believe in love
You are blind Crucify and deny
Pass the blame and burn the mission
Till dust remains and wash your hands Blind words you call
Blind words will fall Blind words you call
Blind words will fall
