Fire

Matthew "Mdot" Finley

Nobody's gonna wanna stand next to me
'Cause they know
I take what's mine and won't let it go
Doesn't matter how you approach the scene
Just hope you're everything ad more
When you hit the door

I dare you to challenge me
You'll be begging for mercy please
Just watch I'll give you something to follow
'Cause I've been waiting so patiently
To let the fire come out in me
I'm what you're up against
Just letting you know

[CHORUS]
I keep giving you the fire
Im'ma heat it up
Under my conrol
Here's the night that you've been waiting on
Fire
Im'ma light it up
Gotta make it hot
The stage s mine
Let's set it off

A king is knowing
No one can take his crown
I'm so brave
They can't cool me off when I hit the stage
Burnin' hot, the spotlight just spelled my name
I feel famous
The crowds cheers me on
They can't get enough

I dare you to challenge me
You'll be begging for mercy please
Just watch I'll give you something to follow
'Cause I've been waiting
So patiently to let the fire come out in me

I'm what you're up against
Just letting you know

[Chorus] (repeat 2x)

Fire!
