

# Sugar

Dan Wilson

You got all the sugar you'll ever need  
You're gonna give some of your sugar to me  
You got all your demons held at bay  
You're gonna drive some of my demons away Sweet, sweet sugar to me  
Please let me know when your kisses are free  
Red, red light in the wine  
Please let me know when you're gonna be mine You got all your glory to find someday  
Sit down with me and let the time pass away  
When you're gone tomorrow very far  
You can't remember me here where we are Sweet, sweet sugar to me  
Please let me know when your kisses are free  
Red, red light in the wine  
Please let me know when you're gonna be mine You got all the sugar you'll ever need  
You're gonna give some of your sugar to me  
You got all your demons held at bay  
You're gonna drive some of my demons away Sweet, sweet sugar to me  
Please let me know when your kisses are free
