# Fearless

## Olivia Holt

You used to make my heart pound, just the thought of you
You used to be a cold wind, always blowing through
But I won't take it anymore, that's not what I came here forI'm stuck in your head, I'm back from the dead
Got you running scared, I'm fearless
I'm calling you out, I'm taking you down
Don't you come around, I'm fearlessWhoa, whoa
I've got the upper hand now, and you're losing ground
You never had to fight back, never lost a round
You see the gloves are coming off, tell me when you've had enough
YeahReady for a showdown, and we're face to face
I think I'll rearrange it, put you in your place
You don't get the best of me, check it, you're afraid of meI'm stuck in your head, I'm back, back from the dead
Got you running scared, I'm fearless
I'm calling you out, I'm taking you down
Don't you come around, I'm fearless, I'm fearless, I'm fearlessYou used to make my heart pound, just the thought of you
But now you're in the background, what you gonna do?
Sound off if you hear this, we're feeling fearless, we're feeling fearlessI'm stuck in your head, I'm back, back from the dead
Got you running scared, I'm fearless
I'm calling you out, I'm taking you down
Don't you come around, I'm fearlessI'm stuck in your head, I'm back from the dead
Got you running scared, I'm fearless
I'm calling you out, I'm taking you down
Don't you come around, I'm fearlessI'm stuck in your head, I'm back, back from the dead
Got you running scared, I'm fearless
I'm calling you out, I'm taking you down
Don't you come around, I'm fearless
