

Doctor, Doctor

R5

I just gotta realize,
The fire in your eyes for me.
And baby all these little sparks,
Ignite until I just can't breathe. And time, and time, and time, and time, and time again,
I'm lying in the dark,
and wondering where you are.
I'm trying, I'm trying, I'm trying to find my medicine,
Straight into my heart,
It's tearing me apart. I'm screaming doctor, doctor, bottle it up!
I'm a believer, believe me,
This love is a drug!
Ooo-ooo-ooo
I'm dying, I can't get enough.
I'm screaming doctor, doctor, bottle it up! I hadn't slept a couple nights,
Been staring at the ceiling again.
The side effect I know too well,
I'm addicted to the feeling. And time, and time, and time, and time, and time again,
I'm living in a dream,
Or somewhere in between.
I'm trying, I'm trying, I'm trying to find my medicine,
It's everything I need,
You're the remedy. I'm screaming doctor, doctor, bottle it up!
I'm a believer, believe me,
This love is a drug!
Ooo-ooo-ooo
I'm dying, I can't get enough.
I'm screaming doctor, doctor, bottle it up! Doctor, doctor, bottle it up.
I'm a believer, believe me,
This love is a drug.
Ooo-ooo-ooo
I'm dying, I can't get enough.
Doctor, doctor. I'm screaming doctor, doctor, bottle it up!
I'm a believer, believe me,
This love is a drug!
Ooo-ooo-ooo
I'm dying, I can't get enough.
I'm screaming doctor, doctor,
Bottle it up!
