# Baby I'm Ready

## Levert

baby its time for me
to give you all the love you need
and baby i know that you deserve the best
and i cant keep treating you
like i treat the rest say

baby im ready (im ready)
to give you all of my love
this is yours baby
girl im tired of playing games
so many loves i cant even name
im ready
to give you every little piece
every little part of me baby
Baby not just a little bit
i want to give you all of it

baby i know
that you need morning noon and evening love
and i just aint been giving you my time
but girl i want to give you
every little bit every little piece every little part of me baby
show you my love just cant be beat
oh baby

baby im ready
to give you all of my love (this is yours baby)
girl im tired of playing games
so many loves
i cant even name
im ready
to give you all of my love
all of my love
baby not just a little bit
i wanna give you all of it

girl my kisses belong to you
take my heart in your hands
and do whatever you wanna do with it baby
my love my love

goes deeper than the eye can see
i made mistakes before
so wont you please forgive me
oh baby
oh my sweet little baby
i'll give you everything
just ask me
and i'll do it for you baby
so wont you give me one more chance
give me one more chance
we could have an everlasting romance
baby baby baby
im ready
to give you every little piece every little part of me baby
