Candy

Morphine

Candy told me, "Nothing really matters anymore"
And when I ask her what she means she says, "I ought to know"
Candy said she's made arrangements for me in the sand
Candy said she wants me with her down in CandylandCandy says she wonders, she wonders why we try
I couldn't think of what to say, I had no ready reply
But Candy says, "I'd like it where she is"
She says, "It's an opportunity that I don't wanna miss"Candy said she's made arrangements for me in the sand
Candy said she wants me with her down in Candyland
Candy said she wants me with her down in CandylandCandy asked me if she died, if I could go on
"Of course" I said, "I couldn't" and of course we knew that's wrong
"Oh Candy" I said, "Candy no, you can't do that to me
Because you love me way to much for you to ever leave"Candy said she's made arrangements for me in the sand
Candy said she wants me with her down in Candyland
Candy said she wants me with her down in CandylandCandy said she's made arrangements for me in the sand
Candy said she wants me with her down in Candyland
Candy said she wants me with her down in Candyland
And Candy said she wants me with her down in Candyland
Candy said she wants me with her down in Candyland
