

Low life

Nikoteens

I've been on my best behavior
My conscience is a little too clean
My halo's just a little too tight now
 I'm tired of the old routine
So, baby, let's get down and dirty
 Forget about right from wrong
I wanna sleep in a cheap motel room
 With nothing but the TV on
We need a little of the low life
 To keep our feet on the ground
 Just a little of the low life
 Sooner or later we gotta get
 Down to the low life, yeah
Well, I don't wanna talk religion
 Don't wanna talk politics
 I don't wanna talk at all, babe
 I just wanna get my kicks
 So c'mon, baby, let your hair down
You can chuck your pearls out the door
Just a little black lace and a smile on your face
 We'll never need nothing more
 We need a little of the low life
 To keep our feet on the ground
 Just a little of the low life
 Sooner or later we gotta get
 Down to the low life, yeah
 I'm talking low, babe
Now, baby, you don't wanna talk about your day
 And you sure don't wanna hear 'bout mine
 I'll meet you at the Notell Motel
 Underneath the vacancy sign
 We need a little of the low life
 To keep our feet on the ground
 Just a little of the low life
 Yeah, sooner or later
You gotta get down to the low life
 Just a little bit of foolin' around
 We need a little of the low life
Oh babe, we need a little of the low, low life, yeah

Let's get down and dirty low, low life

Hey, we need a low low life

Just get down and dirty, baby
