

Sodom & Gomorra

Accept

Ever since the stone-age
Mans been on the hunt
We were born to kill
Fighting for survival
All in self-defence
It was do or die
Now were living in jungles
The concrete age
A maximum overdose of pleasure and
pain
Self-inflicted - life corrupting
Antisocial - controversial - living
in sin
Sodom and Gomorra
Let me tell you what I see
Sodom and Gomorra
Got not law and order
Ruled by anarchy
Its here to stay
Chaos in the classroom
Kids are killing kids
Getting outta hand
Mothers and fathers - the sickening
ones
Raping the children
At the end of a gun
Self-inflicted - life corrupting
Antisocial - controversial -
living in sin
Sodom and Gomorra
Let me tell you what I see
Sodom and Gomorra
Were in a burning hell for all eternity
Sodom and Gomorra
You mustnt look back
To Sodom and Gomorra
Dont you look back -
to the essence of evil
This universe of hatred

Aggression is the force
Heading for oblivion
Were on collision-course
Evolutions over
The devil has prevailed
Heaven screams for vengeance
This is judgement day
Self-inflicted - life corrupting
Antisocial - controversial -
living in sin
Sodom and Gomorra
Let me tell you what I see
Sodom and Gomorra
Forever ruled by anarchy
Sodom and Gomorra
Forever damned to purgatory
Sodom and Gomorra
