

# Make My Day

[Raphael Saadiq](#)

Being with you, baby, that's gonna make my day  
Come and help me, darling, I just wanna play  
Being with you, baby, that's gonna make my day  
Come and help me, darling, I just want to play  
Being with you, baby, that's gonna make my day  
Come and help me, darling, I just wanna play  
Being with you, baby, that's gonna make my day  
Come and help me, darling, I just wanna play  
Being with you baby that's gonna make my day  
Come and help me darling, I just wanna play
