

The Best of Times (MP Vocal Demo)

Dream Theater

Remember days of yesterday
And how it flew so fast
The two score and a year we had,
I thought would always last
The summer days and west coast dreams,
I wished would never end
A young boy and his father,
Idol and best friend
I'll always remember
Those were the best of times
A lifetime together
I'll never forget
Morning shows on the radio
The case of the missing dog
Lying on the fields at the only twelve
Watching Harold and Maude
Record shops, the stick-ball fields
My home away from home
When we weren't together
The hours on the phone
I'll always remember
Those were the best of times
I'll cherish them forever
The best of times
But then came the call
Our lives changed forever more
You can pray for a change
But prepare for the end
The fleeting winds of time
Flying through each day
All the things I should have done
But time just slipped away
Remember "seize the day"
Life goes by in the blink of an eye
There's so much left to say
These were the best of times
I'll miss these days
Your spirit led my life each day
Thank you for the inspiration
Thank you for the smiles
All the unconditional love
That carried me for miles
It carried me for miles
But most of all thank you for my life
These were the best of times
I'll miss these days
Your spirit led my life each day
My heart is bleeding bad
But I'll be okay

Your spirit guides my life each day
