

# Singing in the rain

i**Yif**i<sup>o</sup>

I'm singing in the rain  
Just singing in the rain  
What a glorious feeling  
    I'm happy again  
    I'm laughing at clouds  
        So dark up above  
        The sun's in my heart  
And I'm ready for love  
    Let the stormy clouds chase  
        Everyone from the place  
        Come on with the rain  
        I've a smile on my face  
        I'll walk down the lane  
            With a happy refrain  
Singing, singing in the rain  
    dancing in the rain  
        singing in the rain  
        I'm singing in the rain  
            Just singing in the rain  
            What a glorious feeling  
            I'm happy again  
            I walk down the lane  
                With a happy refrain  
I'm singing, singing in the rain  
    singing in the rain
