Twist Of Fate

Bad Lieutenant

Feels great when you get the runaround, life you led was full of lies,
too late when you start to look around, all you find is wasted lives,
do you want to obliterate some things you don't understand,
since you want to succumb to fate watch the world slip through your hands
(Ahah)
You get the feelin' that it's never gonna change, doesn't mean a thing
Your life's not gonna end, it'll be OK
Don't say goodbye my friend cause it doesn't mean a thing,
the simple twist of fate, no, it doesn't mean a thing,
you start to get the feelin' that it's never gonna end,
doesn't mean a thing
(Ahah)You hate when you start to think about things in life that could have been,
too late, it's not gonna turn around,
can't escape the mess you're in,
do you wish there was a way to stop the fickle hand of fate
or do you give in to the urge and kill the very thing you hate?(Ahah)
You get the feelin' that it's never gonna change, doesn't mean a thing
Your life's not gonna end, it'll be OK
Don't say goodbye my friend cause it doesn't mean a thing,
the simple twist of fate, no, it doesn't mean a thing,
you start to get the feelin' that it's never gonna end,
doesn't mean a thing
(Ahah)Do you feel alive for the first time, do you feel alive for the first time,
do you feel alive for the first time, do you feel alive, alive?
