Seven Days of May

Testament

Put your life on the line
To hesitate is a waste of time
No giving in to repent
Unto the system of the governmentIt's called the people's republic here
The propaganda so sincere
Oh, what a joke and a blatant lie
From criminals ranking highBorn a political prisoner
Raised outside of the law
I'm gonna keep on fighting
Until I die for the causePut an end to hypocrisy
Lead the way to democracy
No longer will be play the fool
To brutalized military ruleThey started forty years ago
We never could sky yes or no
A million souls make our voice
We want the right to make a choiceBorn a political prisoner
Raised outside of the law
I'm gonna keep on fighting
Until I die for the causeFreedom, freedom calling
Out from the pain
Freedom, freedom falling
Seven days of MayThey tried to show a peaceful path
Then it turned into a bloom bath
In the square they plan the game
That's when the thanks of the army cameThey called the murders minimal
Described their victims as criminals
Dead souls like you and me
Who only wanted free societyBorn a political prisoner
Raised outside of the law
I'm gonna keep on fighting
Until I die for the causeFreedom, freedom calling
Out from the pain
Freedom, freedom falling
Seven days of May
