And if you heard them once, you heard them all
There aint nothing to it (no its nothing baby) You must be Crazy
Do yourself a favor, quit while your ahead
Baby you should work on your game before you say it
You can't think that I was born just yesterday
I'll you give a tip, You might just get away with it
You might just get away with it (I)
You might just get away with it (if you say)
