

We Ride (i See The Future)

Mary J Blige

Just can't help it, I love my hun
All that I need and all that I want
Said, just can't help it, I love my hun
All that I need and all that I want
Everybody asking why Mary ain't mad no more
It seems like a question that I've already answered
Like too many times before
Now ladies if you got a man and he treat you real good
Ain't you gon' flex every chance that you get?
Now, ain't you gonna love him just like you should?
Especially when you never thought you would? Yeah
Oh, you know that I'm all into the feeling and I never look to lose it
Oh, for sho' this is consistent with you I find a rhythm
From the day to the night we ride, we ride, we ride
Hey, now how you like it, how you like it?
I see the future baby, you and I better with time
And it is what it is and I just can't help it
And I felt what I felt, no I just can't help it
I see the future, baby, me and you that's how we do
I got a song in my heart that's all that I need
I sing it a capella, I sing it to the beat
What we are is classic, you know it
Because your attitude shows it
Now fellas if you got a girl and she treats you right
Ain't you gon' spend every dollar, every cent? Ay
Ain't you gon' make sure she stay fly?
Especially when she's reppin' you for life
From the day to the night we ride, we ride, we ride
Hey, now how you like it, how you like it now?
I see the future baby, you and I better with time

And it is what it is and I just can't help it
And I felt what I felt, oh Lord I just can't help it, yeah
I see the future, baby, me and you that's how we do
You are mine, I told you before
I wouldn't lie, I need you and more
Gotta stay with you, I am safe with you
Let me repeat it in case you forgot
Love is a mountain and we're at the top, yeah

Breath and strength 'cause I see the future in your eyes
From the day to the night we ride, we ride, we ride
How you like it, how you like it, baby?
I see the future baby, you and I better with time
And it is what it is and no I just can't help it
And I felt what I felt, and no I just can't help it, yeah
I see the future, baby, me and you that's how we do
From the day to the night we ride, we ride, we ride
Oh, now how you like it, how you like it?
(Yeah yeah yeah, yeah yeah yeah)
I see the future baby, you and I better with time
And it is what it is and I just can't help it
And I felt what I felt and no I just can't help it, ay
I see the future, baby, me and you that's how we do
Just can't help it I love my hun
(And we ride)
All that I need and all that I want, said
Just can't help it I love my hun
(And we ride)
All that I need and all that I want
