

# â€œDean's Roomâ€•

Allison Crutchfield

I get off the mattress on the floor  
I have never been addicted to anything like this before  
I dance around in Dean's room while I have it to myself  
But I feel like you're always watching me You just wanna catch me alone  
You just wanna catch me alone  
You just wanna catch me alone  
You just wanna catch me alone There are no photographs of us  
There's nothing left for us to discuss  
You crawl on your belly and you ask for forgiveness  
All while maintaining your innocence  
You just wanna talk to me  
You just wanna talk to me  
You just wanna talk to me  
You just wanna talk to me Think of you like a roach at my feet  
I am just as scared of you as you are of me  
You're red like the devil, and dark like the pitch black night  
Yeah I dance with the devil in the broad daylight  
You just wanna catch me alone  
You just wanna catch me alone  
You just wanna catch me alone  
You just wanna catch me alone
