Stay

Otep

These days of rage have left their stain on me
I've pummeled this world to dust
I've broken these men of blood
Now I wake naked, in the debris
But I'm sick of fighting, sick of crying
Everything mounting up sky high and I must thus
Trust no one
Stay frozen
My moment is here
The enemy's drawing so near
Stay away
Stay away
Stay
Stay away
Stay away
Stay
Stay away
Stay away
Stay away
Break
These chain that bury me
Enemy
Bury me
Stay the fuck away, stay the fuck away
It comes down to this
Your face, my fist
It comes down to my life or yours
My life or yours
All I'll ever do is hurt you
(Stay no
Go away
Stay no
Go away
Stay no
Go away
Don't go
Don't go)
These days of rage have left their stain on me
I see enemies everywhere all the time

Enemies everywhere on all sides
Some are blind, some are useless
Most have succumbed to divine pollution
Human sewage
Hurt them first
Shoot the wounded
Hope hurts
Stay away
Stay away
Stay
Stay away
Stay away
Stay
Stay away
Stay away
Stay away
Break
These chains that bury me
Enemy

Bury me
Stay the fuck away, stay the fuck away
It comes down to this
Your face, my fist
It comes down to my life or yours
My life or yours
All I'll ever do is hurt you
Alone in my own mind
No maps, no roads
The world is full of ghosts
It's my life or yours
It's my life or yours
All I'll ever do is hurt you
Abandoned
Stranded
Betrayed
With friends like these, I need my enemies
Dissected
Neglected
Erased
With friends like these, I need my enemies
Abandoned
Stranded
Betrayed
With friends like these, I need my enemies

Dissected
With friends like these
I need my enemies
I need my enemies
I need my enemies
These days of rage have left their stain on me
It comes down to this
Your face, my first
It comes down to my life or yours
My life or yours
All I'll ever do is hurt you
Stay away
Stay away
Stay
Stay away
Stay away
Stay
Stay away
Stay away
Break
These chains that bury me
Enemy
Bury me
Stay away
Stay away
Stay
Stay away
Stay away
Stay
Stay the fuck away
Stay the fuck away
