

# Mouse in My Toolbox

## The Laurie Berkner Band

I say goodnight  
And I turn out the light  
I close my eyes, ready to sleep  
Then I hear a noise

But it's not from my toys, my dogs, or my cats, or the street. I hear a bang bang bang with my hammer  
And a turn turn turn with my screwdriver

There's a paw on my saw  
And an eye on my drill  
And a little tail is wrapped around my pliers  
There's a mouse in my toolbox. She wants a house like my house

She wants a floor like my floor  
She wants to rock in a rocking chair on her porch outside her front door  
And She wants a room like my room  
She wants a bed like my bed

She wants a toy chest full of toys that's painted purple and red. I hear a bang bang bang with my hammer  
And a turn turn turn with my screwdriver

There's a paw on my saw  
And an eye on my drill  
And a little tail is wrapped around my pliers  
There's a mouse in my toolbox. I turn on the light again  
Look at my tiny friend

And I start to dream my own dream  
I'll help build a house as a gift for my mouse  
And then we can both go to sleep. And so I'll bang bang bang with my hammer  
And I'll turn turn turn my screwdriver

I'll use my wrench and my saw and my power drill  
And I'll tie it with a \_\_\_\_\_ wire  
For the mouse in my toolbox  
For the mouse in my toolbox  
For the mouse in my toolbox  
Bang Bang Bang
