Gravesend

La Coka Nostra

Pulling the cold on top
Waiting for light and sound to stop
Deeper and deeper today
Further and further I fade away
Let me ignore the cause
Special effects for common laws
I?m ready for numb
I?m ready? for numb
What have I become?
If the daylight stain me
I just want to be dead for good
When the spirit makes me
I will die like a good man should
I was only 18 when I finally let go
Picking at the dead like a rat on the road
I will never understand if I never get told
Living in the dark like a rat on the road
Digging with pale white hands
Keeping the calm and tasting sand
Doing a favor today
Telling a friend to stay away
I can?t afford the cost

I don?t care for what I?ve lost
Ready for numb
I?m ready for numb
What do I become?
If the angels take me
They?re gonna need extra time
When the spirit mocks me
I know I?ll only take what?s mine
I was only 25 when I finally went home
Looking for a ride like a murder on the road
I will only understand when you leave me alone
Dying in the dark like a murder on the road
Like a murder on the road
You?re never too young to remember you?re old
Looking for a deal like the devil on the road
I will only understand when I finally get told

Waiting for the God like a Devil on the road
Like the devil on the road
Like the devil on the road
Like the devil on the road
