

# **Nobody Knows**

## **Pat McGee Band**

Everybody's not the same, they got their own lives  
They can't guess how we read between the lines  
People around us just don't see our ways  
We just stick around each other through today  
Nobody knows, the way we know  
Nobody knows where we go  
Nobody knows the way we are  
Nobody knows how we've come this far  
They can't take the fighting all the time  
All their so-called love ain't worth a dime  
Fighting in the ring, there's no one in their corner  
'Round twelve is coming up, who'll be there for her?  
Time will never play its games on us  
It's the way we are that keeps us on the road
