

Heat

Mission (UK)

Let me lay waste with gentle persuasion
Let me lay down to sweat in the heat
On the back of beyond we laugh at all reason
And in the light of it all there's no need to retreat
And the heat comes down
And hand in handWe melt in the heat
We melt in the heat
We melt in the heat
We melt in the heatSave for the asking, fortune favors the brave
Let me take strength from the child in your eyes
And between the lines we dance into the mirror
And a grateful embrace lays in wait for the sun to rise
And the heat comes down
And the heat comes down
And hand in handWe melt in the heat
We melt in the heat
We melt in the heat
We melt in the heatLove, love, lovePlease don't take it hard
When I give myself to you
Love will come easy
When you deign to swallow my pride
Before I ever touch your lips
You promise the very earth to me
And tender hearts are broken down
When you take me deep inside
And the heat comes down
And the heat comes down
And hand in handWe melt in the heat
We melt in the heat
We melt in the heat
We melt in the heatWe melt in the heat
We melt in the heat
We melt in the heat
Melt in the heat
