

# Gravity

## Wage War

I'm losing hope, I'm out of touch  
Too late to say "I've had enough"  
It's like every breath could be my last  
My demons won't stay in the past  
All alone  
On my own  
Pull me close I feel the water reach around my neck  
Don't let go just show me that there's better days ahead  
Make me see how I'm only half the person I should be  
Pull me close set me free from this gravity  
I can't run forward and keep looking back  
Hindsight has left me where I'm at  
I tried to run but I couldn't see  
That you were right beside me  
All alone  
On my own  
Pull me close I feel the water reach around my neck  
Don't let go just show me that there's better days ahead  
Make me see how I'm only half the person I should be  
Pull me close set me free from this gravity  
There is a light in the tunnel but it's distant  
On my own and I don't think that I can fix this  
Set me free from this gravity  
Pull me close I feel the water reach around my neck  
Don't let go just show me that there's better days ahead  
Make me see how I'm only half the person I should be  
Pull me close set me free from this gravity  
Pull me close set me free from this gravity
