

You're Gonna Love This (Wuki Remix)

[3OH!3](#)

Yeah I'm standing outside the bar, like a fish out of water
And I'm sorry to bother you miss, you so fine that I gotta peek
'Cause I'm like that, cause I'm like that
I'm gonna buy you all the drinking, I'll be right back
Drinks at the bar, with the francette standing so far
But it feels near, falling she looks
I could take her home with me
I'll buy you around, if you come close
Turn up the sound, turn the lights down
Give me a chance, I will take her home with me
You're gonna love this! Yeah I don't know what's happening,
And I swear in your honor that in my college
Girl was biting on my lips like Jeffrey Dummer
Yeah it's like that, yeah it's like that
I just drove her back to my place for a night cab
Drinks at the bar, with the francette standing so far
But it feels near, falling she looks
I could take her home with me
I'll buy you around, if you come close
Turn up the sound, turn the lights down
Give me a chance, I will take her home with me
You're gonna love this! You're gonna love this! Yeah you know
the flashing lights have got a hold on me
Yeah I'm high on a feeling there's nothing wrong with me
La la la la la
Oh yeah you're gonna love this! Yeah you know the flashing lights have got a hold on me
Yeah I'm high on a feeling there's nothing wrong with me
Yeah you know the flashing lights have got a hold on
me
Yeah I'm high on a feeling there's nothing wrong with me
