

# When Angels Unite

## Pagan's Mind

When angels unite I see your eyes watching the night  
Watching the lights  
Feel, tantalizing  
You are a dream I can not describe  
See, I'm not awake  
I close my eyes and wish it was real  
Closer, to what I've become  
Watching my destiny  
And I can no longer wait  
The moment has arrived  
Here you are by my side  
And this is for real  
The pain we feel, left behind  
See, I'm still awake  
Open my eyes, and know it's for real
