That Is The Matter

Pascale Picard

Watching my favorite reality show
Waiting for the commercial to get another Diet Pepsi
I got 5 minutes between two programs, so I'm already wearing my coat
The musical theme starts and I'm running to the grocery
Buying my lottery, saying to the cashier,
I'd better be lucky cause the government steals all my moneyMy teenagers are doing drugs and my baby girl wears thongs
I called 3 or 4 times to the open lines to give my point of view about it
I also thought about writing a letter to the prime minister
He has to know that our kids are out of hand because of rap music
And movies cause if they are violent it's all their fault
They're too young to tell the difference between fiction & realityAnd I don't really remember the day I fell down in the hole
But watch me trying to get out of it by digging deeperThey're trying to sell us a beer that's 99% water
The weather is too cold and we pay that with our taxes
