# Three Little Girls

## Eric Clapton

When this world got to feel low
I don't need nowhere else to go
as I get all the love I need
from three little girls
In the garden collecting snails,
on the bed reading fairy-tales,
I get all I'll ever need
from three little girls
As all my world was sad and weary
all my days were winding up,
then you showed me a better way,
my three little girls
Lord, you put me to the test
and let me through the wilderness,
then you showed me a brighter day
with three little girls.
Julie Rose and Ella Mae,
Sophie Bell, I can't stay,
you take my breath away,
my three little girls
As all my world was sad and weary
all my days were winding up.
You showed me a better way,
my three little girls,
three little girls
