

# What About God

[Crystal Lewis](#)

What about God  
What about God  
Where am I that I don't feel him anymore  
Can a man go so far  
that he doesn't feel the presence of his closest friend  
What about God  
What about God  
Where am I that I don't see him working anymore  
Can a man go so far  
that he doesn't feel the presence of his closest friend  
Can a man go so far  
that he doesn't feel the presence of his only friend  
What about God  
What about God  
What about God
