No More No Less

Kryptic Minds

No More No Less
It takes more than A just making a fist,
it takes more than just getting pist
You gotta make your stand and resist
You Gotta Resist or You'll cease to exist
No More, No Less
[Chorus]No more No freakin less
No more No less
No more Not a Penny less
We're taking what we deserve,
How can you see what I see
Aint setting for second best
How can you twist the list
and expect me not resist Ha ha ha
when everybodys coming down on me
that goes terrorizing my brain?
How can you explain all the pain
Now you'll face a man that understands

that violence is the best plan its cyco time again!
[Chorus]No more No less
No more No freakin less
We're taking what we deserve,
No more Not a Penny less
Aint setting for second best
No more No less
No more No freakin less
No more No Less!
No more Not a Penny less
How can you call it cheating
if we're too smart to get caught
Come on everybody
let's show them what the fuck we got
Its time to get cyco
let's tear this mutha out
Anytime, anywhere, without a doubt, we're gonna take you out!
