It'll Come (Yam Who Rework)

Belleruche

May as well turn around
It doesn't really matter which way you go
Backstep for surefooling
Sidestep for perspective
Oh but be sure, yes be sure
Rest assured, oh be sure
That it will come to youYou've got to flow with the vibe
Flow with the stream
Choose if you must but
Choose fearlesslyOh it will come to you
If you take some time
And stay true to youOh it will come to you
If you take some time
And stay trueOh it will come to you
If you take some time
And stay true to youOh it will come to you
If you take some time
And stay trueSit back and relax
And let it happen naturally
No use in forcing then fighting
And making and breaking and using forcefully
'Cause you may be rowing your boat upstream
And find yourself up someone else's creek
Lost time wasted sweat and tears
No one has so many years
Weather you do, oh weather you don't
So what if you're a mess
'Cause everyone
Everyone's been thereOh it will come to you
If you take some time
And stay true to youOh it will come to you
If you take some time
And stay true to youOh it will come
It will come to you
Oh it will come to you
If you take some time
And stay trueOh it will come to you
If you take some time
And stay true to youOh it will come to you

Take some time
Take some time
If you stay true to you
If you stay true to you
If you stay true to you
It will come to you
Take some time, take some time
