                  Last night a DJ saved my life  
                  Last night a DJ saved my life Yeah  
                  Cause I was sittin there bored to death  
                  And in just one breathe he said  
                  You got get up, you got get up, you got get down girl  
                  You know you drive me crazy, baby  
                  You got me turnin to another manCalled you on the phone no ones home  
                  Baby, why you leave me all alone  
                  And if it wasnt for the music  
                  I dont know what Id do, yeahLast night a deejay saved my life  
                  Last night a deejay saved my life from a broken heart  
                  Last night a deejay saved my life  
                  Last night a deejay saved my life with a song  
                  You know I hopped into my car, didnt get very far, no  
                  Because I had you on my mind, why be so unkind  
                  You got your women all around, all around this town  
                  But I was trapped in love with you and I didnt know what to do  
                  But when I turned on my radio  
                  I found out all I needed to know  
                  Check it out  
                  Last night a deejay saved my live  
                  Last night a deejay saved my life from a broken heart  
                  Last night a deejay saved my life  
                  Last night a deejay saved my life with a songLast night a deejay saved my life  
                  Last night a deejay saved my life from a broken heart  
                  Last night a deejay saved my life  
                  Last night a deejay saved my life with a song  
                  Hey, listen up to your local deejay  
                  You better hear what hes got to sayTheres not a problem that I cant fix  
                  Cause I can do it in the mix  
                  And if your man gives you trouble  
                  Just move out on a double  
                  And you dont let it trouble your brain  
                  Cause away goes trouble down the drain  
Said away goes trouble down the drainWell, alrightDub timeLast night a deejay saved my lifeTheres not a  
                  problem that I cant fix  
                  Cause I can do it in the mix  
                  Cause I can do it in the mix  
                  In the mix, in the mix, in the mix, in the mix

In the mix, in the mix, in the mix, in the mix  
In the mix, in the mix
