

Just Might Have Her Radio On

Trent Tomlinson

Hey, Mr DJ, can I make a request
Somebody I love just up and left
An' if I know her, she'll drive all night alone
An' she just might have her radio on
Yeah, I pray she has her radio on Just in case she ain't that far from town
Play somethin' that'll turn her car around
An' send it out from a fool who's done her wrong
Hey, she just might have her radio on
Yeah, I pray she has her radio on Play somethin' that'll get her thinkin' 'bout me
Let her know I'm really sorry
Somethin' that reaches out in the dark
Weighs on her mind, tugs at her heart Well, I know you get this all the time
Broken hearts lightin' up all the lines
Beggin' you to play that special song
Hey, but she just might have her radio on
Yeah, I pray she has her radio on So play her somethin' that'll get her thinkin' 'bout me
Let her know I'm really sorry
Somethin' that reaches out in the dark
Weighs on her mind an' tugs at her heart I need to make a dedication
Before that late-night signal's faded
Before she drives away too far
An' parks that damned old car Play her somethin' that'll get her thinkin' 'bout me
Let her know I'm really sorry
Somethin' that reaches out in the dark
Weighs on her mind an' tugs at her heart
Tears up her eyes, turns round the car Hey, Mr DJ can I make a request
Somebody I love just up and left
