

# Cry, Cry, Cry

Connie Smith

At last I found the way to free myself from you  
And all the heartaches that you left to make me blue  
I thought my world had ended when you said goodbye  
Till I found three ways to ease the pain cry cry cry  
I cry when I get lonely and sometimes when I'm blue  
I cry each time I think about the times I cried for you  
I'm sure that I'll get over you as time goes by  
Cause I found three ways to ease the pain cry cry cry  
[ steel ]  
Maybe someday all the cheers will wash the hurt away  
And drown all of my sorrow I pray for that day  
But until the day that all my tears are dried  
I'll have three ways to ease the pain cry cry cry  
I cry when I get lonely...
