

# Sick girl

## Dover

No one's gonna make it happen sick girl  
no one's gonna do a thing for you  
don't you realise you don't belong here  
no one's gonna do your thing for you.  
No one's gonna make it happen sick girl  
no one's gonna play the game for you  
don't you realise you don't belong here  
no one's gonna do your thing for you.

And I woke up  
and he was there  
oh! This life is over now  
I don't need death  
I need light  
sick girl.
