## Sensitivity

## **Alex Goot**

I don't even know the real me anymore I can't even show how I feel I hit the floor I'm talking rock bottom My feelings I fought em I can't believe it's come to this 'Cause I need to a grip on reality Now i wanna feel some sensitivity I'm here, i'm telling you i Cleared my life I changed my head Trying to catch my skin again I'm finding out what makes me wanna live By living it up again It's my world I paved my way Found my sensitivity I stepped back from the edge Now i'm living it up again I've been doing fine in my misery Not crazy I told them not to worry about me But everytime i wanna feel some sensitivity I'm here, i'm telling you i Cleared my life

Trying to catch my skin again
I'm finding out what makes me wanna live
By living it up again
It's my world
I paved my way
Found my sensitivity
I stepped back from the edge
Now I'm living it up again
Living it up again
Living it up again
Living it up now i'm not crazy i'm just sensitive
I stepped back from the edge

I changed my head

I cleared my life I changed my head Trying to catch my skin again I'm finding out what makes me wanna live By living it up again It's my world I paved my way Found my sensitivity I stepped back from the edge Now I'm living it up again Living it up again I'm living it up again Living it up now i'm not crazy i'm just sensitive Living it up again I'm living it up again Living it up now i'm not crazy i'm just sensitive
