

# Ready or Not

## Cedric Gervais feat. Second Sun

What is my destination?  
Spinning so fast I can't slow down  
I lose my head when you're around, yeah  
Don't tell me to run away from this  
Cause you've got the love I can't resist  
How can I breathe?  
How should I feel?  
Holding me back  
Baby what you do, what you do, what you do to me  
Makes me want to be somebody I'm not  
Every time you do, what you do, what you do to me  
Take your chance boy, ready or not  
Baby what you do, what you do, what you do to me  
Makes me want to be somebody I'm not  
Every time you do, what you do, what you do to me  
Take your chance boy ready, ready or not  
Take your chance boy, ready or not  
Longing for inspiration

Somehow you turn me inside out  
I need an explanation now, right now  
Don't tell me to run away from this  
Cause you've got the love I can't resist  
How can I breathe?  
How should I feel?  
Holding me back  
Baby what you do, what you do, what you do to me  
Makes me want to be somebody I'm not  
Every time you do, what you do, what you do to me  
Take your chance boy, ready or not  
Baby what you do, what you do, what you do to me  
Makes me want to be somebody I'm not  
Every time you do, what you do, what you do to me  
Take your chance boy ready, ready or not  
Baby what you do, what you do, what you do to me  
Makes me want to be somebody I'm not  
Every time you do, what you do, what you do to me  
Take your chance boy ready, ready or not
