

Interludio (Feat John Leguizamo)

Calle 13

Oh, stupid is as stupid does
What kind of nonsense is this?
We're in a stupid time
Not stupid like stupid fresh
But like a stupid Duh! We're getting stupider by the nanosecond
But we think we're so smart 'cause we follow the leader!
But only cause we are so stupidfied-er! Civilization and evolution can only take us so far
It's up to the individual to unstupify - his self!
The stupification from mass media lies
And corporate ties
Colaborate to keep us intoxicated But start the dechurchification
As an indication of unstupification
By just asking one goddam question
Oh get inside yourself and listen
The truth will set you free from the mass media apocalypse
It's the only antidote to the epidemic
Of the army of stupid is as stupid does
