# These Days

## Professional Murder Music

Watching your face, I can't believe I'm still here
Why did these days bleed like I said?
Do you wanna take a long hard look back?
To know if I feel right now, it's everythingWe're the life you dreamt, such a perfect day
I can almost see outside this place that I left alone too long ago
I don't like the scars how they slip away
Now I'm taking everything you haveWhy can't you go away?
I can't stand your face right here now
Why can't you go away?Is this the only place, I know I'll hate to find out
I could never think of this end
Do you wanna tell me things I don't know
Before I start the burning inside?We're the life you dreamt, such a perfect day
I can almost see outside this place that I left alone too long ago
I don't like the scars how they slip away
Now I'm taking everything you haveWhy can't you go away?
I can't stand your face right here now
Why can't you go away?We're the life you dreamt, such a perfect day
I can almost see outside this place that I left alone too long ago
I don't like the scars how they slip away
Now I'm taking everything you haveWhy can't you go away?
I can't stand your face right here now
Why can't you go away?Why can't you go away?
I can't stand your face right here now
Why can't you go away?
