Victims of the Future

Gary Moore

Searching each day for the answers, watching our hopes disappear

Set on a course for disaster, living our lives in fearOur leaders leave us in confusion

For them there's only one solutionCaught in the fight for survival, trapped with our backs to the wall

Are we just lambs to the slaughter who wait for the axe to fall?Our world is headed for destruction

Our fate is in the hands of foolsShadows of the past

Victims of the futureHow long will it last?

Victims of the futureInto the verbal arena armed with the lies that they tell They're fighting for world domination backed by the weapons of hellIs there no end to all this madness?

Is there no hope for us at all? Shadows of the past

Victims of the futureHow long will it last? Victims of the futureShadows of the past

Victims of the futureHow long will it last?

Victims of the future, yeahShadows of the past

Victims of the futureHow long will it last?

Victims of the futureShadows of the past

Victims of the futureHow long will it last?

Victims of the future Victims of the future

Victims of the future Victims of the future

Victims of the future, yeah
