Innocent (With an Explanation)

Luba

I with my hand in the air
you with your suspicions swear
guilt by association
there is no justification
no reason at all
when you point the finger
I take the fall
I have walked the road
with no deviation
(always innocent)
Now I feel the sting
of your accusation
(always innocent)
I and a thousand alibis
ready to try and verify
my innocence is all I have
no justification
but it's always the same
when you point the finger
I take the blame
repeat chorus
I know it isn't right
I shouldn't have to fight
for my vindication
but I won't take the blame
no more
repeat chorus
I'm innocent
always innocent
fade to close
