

# SOMEWHERE FAR AWAY

## Smitty The B.G.

I'm too tired to get a job  
Gonna thumb out of Abilene  
It's time to take a chance on  
Someplace I've never ever seen  
'Cause I've got nothing to lose  
Too much to see it all  
There's miles in front of me  
Street signs, never mind  
I'm gonna do just what I, what I please  
'Cause I've got nothing to prove  
Whispers on the window  
Gone without a trace  
By the time you look for me  
Well, I'll be somewhere far away  
Don't know if I'll stop  
I've never been to New Orleans  
I'm just a rolling rock, yeah  
Gonna make a break, break it clean  
Don't want nothing but the truth  
Whispers on the window  
Gone without a trace  
By the time you look for me  
Well, I'll be somewhere far away, far away  
Solitary, all alone  
To the quick and to the bone  
And on the edge and unafraid  
What's behind begins to fade  
Whispers on the window  
Gone without a trace  
By the time you look for me, for me  
Well, I'll be somewhere far away  
Too tired to get a job  
Thumb out of Abilene  
Too tired to get a job
