Ugly

Lifer

No use running I see you there No use hiding or lying I'm becoming you I'll be all that I'll be beautiful Pitiful, beautifully pitifulLook at yourself What do you see now? Ugly somehowI am ugly, you are ugly We're all ugly in the mirrorClear day, sunny day Now cloudy day, good day My pain lasting too long But I love what I've become beautiful Pitiful, beautifully pitifulLook at yourself What do you see now? Ugly somehowI am ugly, you are ugly We're all ugly in the mirrorI'm not mentioning any names (I'm not) I'm not mentioning any names (I'm not) I'm not mentioning any names (I'm not) I'm not mentioning any namesLook at yourself What do you see now? Ugly somehowI am ugly, you are ugly We're all ugly in the mirrorI am ugly (I am) You are ugly (You are) We're all ugly (We're all) In the mirror (In the)
