Deliverance (Album Mix)

:Wumpscut:

Being caught in a hopeless mess
For our fate our hopeless mess
We're searching for the final solution
Deriding laughter is your contribution
Search out solute
Caught up our messDeride tribute
Why don't you deliver us from pain and eevil
We stand in a quiver of our god and we will
Our fate hopeless
Follow his will as long as he will feed us
But we're not sure if he does really need us
