

# You Got Yr Cherry Bomb

## Spoon

Life could be so fair, let it go on and on  
I can push for good and you got that cherry bomb  
Blow out that cherry bomb for me  
We lost it long ago, you and me  
Now you know your way back from the spirit far  
Brush your teeth for bed, blow out that cherry bomb  
Blow out that cherry bomb for me  
You got to know it's on your sleeve  
Know it's on your sleeve  
Well, know it's on your sleeve  
It was the longest day that I've ever known  
I watched you start that drive alone  
Blow out that cherry bomb for me  
It's gonna burn right up your sleeve  
Burn right up your sleeve  
So there you go again  
Out in your dressing gown  
Get yourself to bed  
Blow out that cherry bomb  
Oh, life could be so fair, let it go on and on  
I could pay the man, [Incomprehensible] you cherry bomb  
Oh, life could be so fair, let it go on and on  
I could pay the man, [Incomprehensible] you cherry bomb
